Equipment in state-of-the-art-gyms not available through home health representatives

## **FEWER READMITS**

Customized therapy programs with proven lower readmission rates

## **COMPREHENSIVE RECOVERY CARE**

24-hour-a-day care in a total recovery environment

## **UNIQUE TOOLS**

Recovery Map and Personal Report Card to track daily progress and more

## **MEDICALLY SUPERVISED**

24-hour on-staff nursing care, with physician and mid-level care supervision

## **HIGHLY SKILLED TEAM OF PROS**

Dedicated employee team (not contractors) with wide range of experience

## **WORLD-CLASS DISINFECTING**

Widespread sanitizing and disinfecting using highly effective Electrostatic Spraying System

State-of-the-art gyms

Exclusive recovery program  Culture of caring  Exceptional recoveries

## THE SMARTEST CHOICE for the most comprehensive recovery

Backed by nearly 50 years of rehabilitation experience and fueled by compassion to deliver the best care possible, the exclusive LifeWorks Rehab program is the gold standard in recovery from surgery, injury or illness. The clinically developed program provides exceptional recovery experiences you will not find anywhere else.

Choosing the right place to recover can be critical to making a comprehensive recovery. No matter what you're facing, LifeWorks Rehab is the smartest choice and the quickest route back to where you belong.

### WHAT OUR GRADUATES SAY ABOUT US

#### ACCIDENT RECOVERY

"They say laughter is the best medicine, and the LifeWorks Rehab staff helped keep me **motivated** and **cheerful every day** so that I could focus on getting home."

– Jill Graybill

#### CARDIAC RECOVERY

"To come back from four surgeries and be where I am today... that's something that no one can ever take from me. I **couldn't have the same recovery without LifeWorks Rehab.**"

– James Bethel

#### STROKE RECOVERY

"Martha's stroke was totally out of the blue — all of a sudden I had to make big decisions for her recovery. LifeWorks Rehab was amazing — they were **there for both of us every step of the way.** Having her back home is just a miracle."

– John Parrott (Martha's husband)

Our 8 unique differences power exceptional recoveries you simply won't find anywhere else.

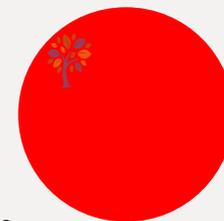

Your customized plan starts here

### World-Class Technology to Keep You Safe

To help protect against the spread of illness, we conduct widespread sanitizing and disinfecting with **world-class electrostatic technology** that is significantly more effective than typical disinfecting procedures.

- Cleaning component Noroxydiff\* — Manufacturer label claims efficacy against family of coronaviruses
- Electrical charge from sprayer pulls spray droplets toward surfaces with a force stronger than gravity, creating a "wraparound" effect
- Droplets surround surfaces more completely for more effective disinfecting

\*Included on EPA list for use against SARS Co-V2

## CLINICAL ASSESSMENT

Your LifeWorks Rehab recovery starts with comprehensive evaluations of your medical and functional status. This is the baseline from which your road to recovery begins!

## JUMP-START MEETING

A LifeWorks Rehab exclusive, this is when you'll meet with your recovery team to review needs, set goals, and create your own Individualized Recovery Plan.

## CRITICAL THRESHOLD

This is the point at which many patients self-initiate discharge back home before they're fully prepared, greatly increasing the risk of medical decline and hospital return.

## HOME VISIT

Every home and every patient are unique. Together we'll practice your daily activities in your own home to make sure you're 100% prepared to return safely home.

Discharge

**Trust us to get you back where you belong.**

**9 out of 10 patients rate us excellent.  
Not good, not great, but excellent.**

With LifeWorks Rehab, each step of your recovery is powered by nearly 50 years of clinically proven rehabilitation experience and a culture of caring.
